1) In a HURRICANE, we plan to: (tick which one best applies)

- Evacuate the island
- Stay at home
- Go to a Public Shelter (if so, which one)
- Go to a Private Shelter (if so, which one)
- Stay with a friend
- We will decide depending on the circumstances but discuss all options (in 'Alert' phase)

1b) Our home is:

- In a low lying flood prone area
- Is ft above sea level
- There are lots of trees and potential for flying objects directly outside our home
- Is a single story home
- Is made of wood
- Has lots of glass windows
- Other vulnerabilities.....

2) In an EARTHQUAKE/ TSUNAMI/FIRE, if split up we plan to:

- **CONTACT EACHOTHER (how):**
- **REUNITE (where):**
- **If at School:**
- **If at home:**
- **If unknown:**

In the event of a TSUNAMI alert-in relation to your HOME/ SCHOOL/ WORKPLACE etc., where is the closest high ground or accessible strong multi –story building and how long would it take to get there by car/ foot?

3) FIRE Evacuation plan for our household:

Exit plan (list for each room):

Outside meeting location (Primary):

Alternative Outside meeting location (if Primary is inaccessible):
