

ADDENDUM NO.6

Request for Proposal

CTC/15-16/HMCI/031 – Supply of Public Safety Radio Communications Services

Proposals Due: 30 May 2016

To all Applicants of record:

This addendum is issued to clarify, add, delete, correct and/or change the proposal documents to the extent indicated and is hereby made a part of the above noted RFP documents on which the contract will be based. Any modifications/changes made by this addendum affect only the portions or paragraphs specifically identified herein; all remaining portions of the proposal to remain in force. It is the responsibility of all Applicants to conform to this addendum.

QUESTIONS SUBMITTED BY EMAIL

List of Questions:

Q1. Has a propagation study been completed and if so will you provide the results? In the event that a propagation study has not been completed may vendors come to the island and conduct their own study prior to submission of their proposal?

A. A full propagation study has not been completed by CI Government for many years and would not be valid due to changes in building heights & codes. A vendor could conduct their own if required.

Q2. On a previous visit to your facility we received a tour of what will be the new EOC. At that time we noticed new Motorola MCD 5000 units at each workstation. These are used to provide digital control over a variety of Motorola two-way radios. Is this an indication of a preference to have the new systems be Motorola?

A. The tender is open to all vendors and there is no preference to the type of equipment supplied.
